Location: Kuregem Cellars, Ropsy Chaudronstraat 24, 1070 Brussel. Many Belgians know Kuregem from recent news flashes on young troubleshooters gathering in the streets. But Kuregem also has a very alive tradition of cheerful markets and festive events. The impressive cellars under the former slaughterhouse and huge marketplace of Kuregem centre are an excellent premise for this conference. The Faculty for Social Works and Social Welfare Studies at the University College Ghent chose this location not only for the efficacy of the space, but also to contribute to empowering the neighbourhood.

The Brussels Kuregem Cellars are easy to reach by public transport. The metrostation DELACROIX (line 2) is just aside the entrance of the venue. This line goes straight to the Southstation. We recommend all people who travel by train to use the metro as they are in the Southstation.

keldersvancureghem.be
